Gain valuable work experience through the

CLEAN ENERGY INTERNSHIP PROGRAM

About the Program

The Massachusetts Clean Energy Internship Program is a decade-strong initiative dedicated to helping students and recent graduates advance their clean energy careers through skill-building, paid internships across the Commonwealth.

Why should you be a Clean Energy Intern?

- Acquire valuable work experience as you begin your career in this exciting sector.
- Get hired for a full or part-time job by your host company.
- Make connections with seasoned clean energy professionals.
- Earn at least $15 an hour ($20 on average).
- Take advantage of the opportunity to work in any region of the state.

MassCEC Internships By the Numbers

MassCEC has placed over 8,000 interns at over 600 Massachusetts clean energy companies since 2011.

Over 1,200 interns have been hired for full or part-time employment.

Over 600 internship opportunities are posted each year.

For Students:

CLEAN ENERGY INTERNSHIP PROGRAM

Hiring Process and Stipend

1. Complete an online application that includes a resume and transcript.

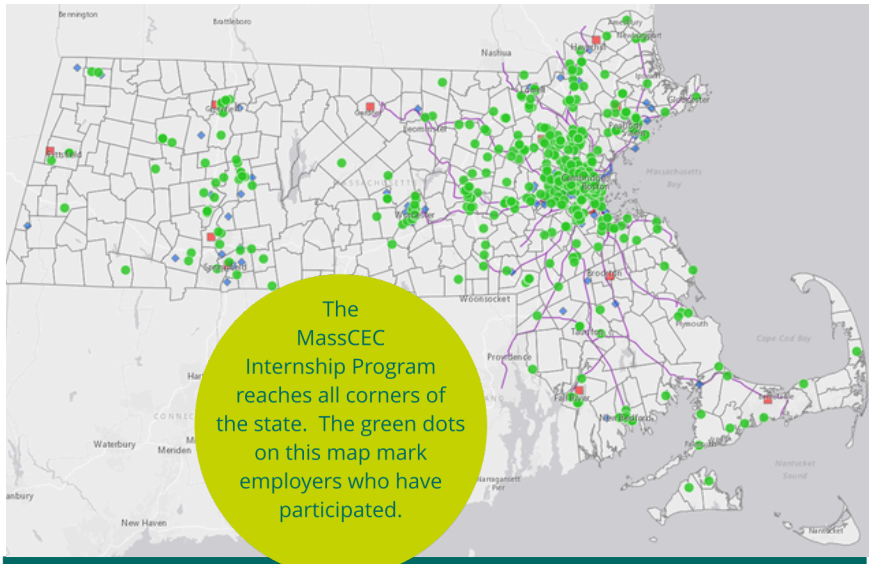

2. Reach out to employers you would like to work with and be proactive!

3. Respond to communications from employers promptly.

4. Sign an offer letter that includes your job title, pay rate, and dates of assignment. The employer will pay you directly.

5. Make the most of your internship by building in-demand skills.

6. Complete all post-program surveys to help improve the program and maintain your eligibility to participate in future programming.

Eligibility Requirements*

1. Must be 18 years of age or older at start of any internship
2. Must attend or have attended:
   - i. a college or university in MA
   - ii. a college or university outside of MA, if applicant is a MA resident
   - iii. a training or certification program
3. Must meet the following:
   - a. Completed or will complete their freshman year of college (24 credits) the semester immediately before the internship, or have graduated within the past calendar year;
   - b. If attends a community college or 2-year associates degree, must have completed 12 credits by session start date;
   - c. If attends a training program, applicant must be currently enrolled in the program or completed program within a year prior to the session date
   - d. If in a graduate program, applicant must be currently enrolled or completed the program within a year prior to session start date
