

Decarbonization Pathways Pilot

Application Form

Overview

MassCEC is seeking applicants for the Decarbonization Pathways Pilot who are committed to decarbonizing their homes. Participants will receive a decarbonization assessment and a decarbonization plan, in addition to financial incentives to implement some or all of the recommended decarbonization measures.

Ultimately, MassCEC is hoping that this pilot will be a model for scalable home decarbonization efforts across Massachusetts. For more information about the Decarbonization Pathways Pilot, please visit the [pilot webpage](#).

We plan to select a diverse cohort of around 30 buildings for this pilot. To apply, please complete this application form.

Pilot Requirements

The Decarbonization Pathways Pilot Program Manual is available here: [insert link when uploaded]

Have you reviewed the Program Manual, including the minimum project requirements to participate? *

Yes

Project Site Information

Project Site Address *

Street Address

Street Address Line 2

City

State

Zip Code

Mailing Address (if different from the Project Site address)

Street Address

Street Address Line 2

City

State

Zip Code

Are you the owner of the project site? *

Yes

No

Is the project site your primary place of residence year round? *

Yes

No

What is the project site's approximate square footage? *

Please select the building type that best describes the project site. *

Single family home, detached

Single family home, attached

Multi-family building with 2 units

Multi-family building with 3 units

Multi-family building with 4 units

When was your house built? *

How many rooms (not including bathrooms) does your home have? *

For this purpose consider a room any space that's closed off by a door.

How many bathrooms does your home have? *

How many stories (not including an unfinished attic or basement) is your home? *

Please select the option that best describes your attic. *

Finished

Unfinished

I don't have an attic

Please select the option that best describes your basement. *

Finished

Unfinished

I don't have a basement

Home Projects

Please select the option that best describes the status of each of the following decarbonization measures, appliances, equipment, home renovations, and purchases related to your home.

Recently Completed	Planning to Do	Would Consider	Not Interested
--------------------	----------------	----------------	----------------

Weatherization, envelope improvements, or ventilation

Heat pumps

Heat pump water heater or solar hot water

Electrical upgrades or barrier mitigation

Electric range/stove

Electric dryer

Solar photovoltaic

Solar photovoltaic battery storage

Electric vehicle

Electric vehicle charger

Outdoor yard equipment

Multiple windows or doors replacement

New roofing

New siding

Major remodel (not including kitchen) or addition

Kitchen remodel

Finished basement

Finished attic

Heating and Cooling

What is the building's current heating method? Check all that apply. *

- Natural gas
- Oil
- Propane
- Electric resistance
- Heat pumps

What is the building's heating distribution system? Check all that apply. *

- Ductwork
- Steam radiators
- Hot water radiators
- Hot water baseboard
- Electric baseboard
- Unsure

What is the building's cooling strategy? Check all that apply. *

- Central air-conditioning
- Heat pumps
- Through-wall units
- Window air conditioner units
- None

Heat pumps can be used as the primary heating and cooling system in a home. For more information about air source heat pumps and ground source heat pumps visit the links below.

Air Source Heat Pumps: <https://goclean.masscec.com/clean-energy-solutions/air-source-heat-pumps/>.

Ground Source Heat Pumps: <https://goclean.masscec.com/clean-energy-solutions/ground-source-heat-pumps/>.

Are you interested in installing heat pumps as the primary source of heating in your home within the next year? *

- Yes
- No
- Unsure

If unsure, please describe any questions or concerns you may have about heat pumps.

Other

Please describe why you are interested in participating in this pilot. Suggested length of 300-1000 words. *

Are you comfortable sharing your energy bills with the pilot's Home Decarbonization Advisor and having them monitor your electrical usage? This data will be used to understand the impacts of decarbonization and will only be shared publicly as anonymous data. See Program Manual for more details.

Yes

No

Which income "bucket" describes your household? For the purposes of this application, this question is optional. If selected to participate in this pilot, we will need to verify your household income amount since it will determine the total incentive amount available for your project.

*See table below

How did you hear about this pilot? Check all that apply. *
