

## PTS DATA ACQUISITION SYSTEMS (DAS) Service Providers

Many MassCEC renewable energy incentive programs require that the completed project report electrical generation to the online Production Tracking System (PTS) via an automated Data Acquisition System for a period of time (up to several years). Programs with this requirement include\*:

- **SREC systems over 25 kW (DC)** (including *Massachusetts Solar Loan projects*)
- **Commonwealth Solar II, Solarize Massachusetts, and Massachusetts Solar Connect** projects do not require reporting regardless of size but may require reporting if selling SRECs.
- **Community Wind**
- **Hydro**
- **Organics to Energy**

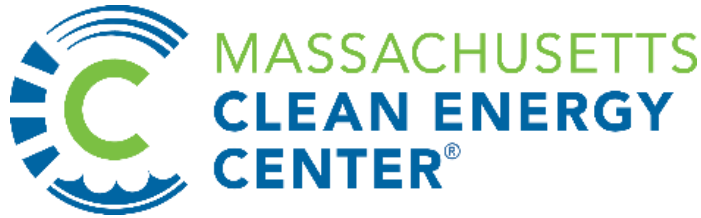

\*Note that this list is not intended to be comprehensive, and that project proponents should check with their MassCEC Project Managers regarding project requirements.

The following companies provide Data Acquisition Systems and related services. If you are a DAS provider and would like to add your company to the list below, please contact [pts@masscec.com](mailto:pts@masscec.com) with your information.

As of September 2020, all DAS providers are required to use MassCEC PTS's automated reporting API. Previously approved DAS providers that are not using the API have been removed from the approved list. If your company is no longer listed, please contact [pts@masscec.com](mailto:pts@masscec.com) for assistance with reinstatement.

### DAS Providers who provide Data Monitoring for General Sites

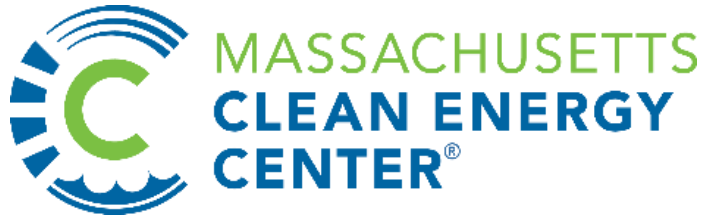

Company Name	Web Address	Phone Number	Email Address
3E USA Inc.	<a href="https://www.3e.eu/">https://www.3e.eu/</a>	1-984-205-1226	<a href="mailto:info@3e.eu">info@3e.eu</a>
